Dear Sir:

AMENDMENT

This communication is filed in response to the Official action having a mailing date of October 18, 2005 in the above-identified patent application, that action having a shortened statutory period for response set to expire on January 18, 2006. Please amend that application as follows:

In The Claims

Please amend the claims as indicated in the attached document titled "Amendments to Claims."

Remarks

The examiner's indication that Claim 17 is allowed, and that Claims 13, 14 and 16 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims is noted with appreciation.

New Claim 18 has been added which includes all of the limitations of Claims 1 and 4-10, except for the limitation of Claim 6, specifying that the secondary mirror has a perimeter smaller than that of the primary mirror, which limitation, as pointed out by the examiner, would be considered as an obvious variation. In addition to the foregoing limitations, a limitation has been added to new Claim 18, which clearly distinguishes the recited mirror over all of the prior art of record, i.e., "means for releasably securing said secondary mirror in front of said primary mirror
